18 June 2021

Dear Parent and Guardian

We have another week's holiday 'in the bank' because we started 2 weeks earlier in February 2021. With the third wave reaching its peak we want to take the best decision in the best interest of all stakeholders.

- When we returned in June 2020 there were 2594 cases reported per day with an average of 2360 per seven days
- In February 2021 after the second wave, 2548 cases were reported per day with a seven-day average of 5539 cases
- At this moment there are 11 767 cases reported an average of 9142 per 7 days. The numbers are still rising. It is not like in the previous two dates where numbers were starting to decline.

We would appreciate it if we can have the input from our parents in this regard. We realise that not being at school has challenges of supervision when parents have to work. By the grace of God we did not have one case that originated at the school and we will keep very strictly to our Covid protocols. At the moment we are not sure how many families are in isolation or how many teachers might have been in close contact with a Covid positive case.

We want to take a final decision by tonight. Please support us in completing the questionnaire.

Please remember to wear your mask, sanitise/wash your hands and keep a safe distance as not to become a close contact to any person.

Yours in Education

JJ Berrange  
Principal
